

## Tower Enroute Control Routing (TEC)

Want to fly a local IFR flight without going through Center's computer? How do you do it and what routing can you expect? Join Dave Kramer as he reviews Tower Enroute Control routing, a handy tool for the IFR pilot. Dave is a private pilot with an instrument rating, tailwheel endorsed and a basic ground instructor.

**Directions:** Pilots who fly in should park in transient parking on the opposite side of the field and expect to walk about 10 minutes (.5 mile) to the Flight Center. Suite 215 is upstairs in the northwest corner. On occasion, rides may be prearranged through San Carlos Aviation and Supply.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
